Product Manager | Data & Growth Analytics

Gurgaon, India | +91-8769966614 | avi290994@gmail.com | linkedin.com/in/abhinav-goyal-7814105a | github.com/agdecodes

SUMMARY

Data-driven Product Manager with 6+ years owning data products end-to-end — from problem definition and requirements through build, launch, and iteration. At **Noon.com**, owned the full lifecycle of seller-performance and category intelligence products used by **12+ stakeholders** daily, defined north-star metrics, prioritized feature investments using 80/20 frameworks, and shipped experimentation infrastructure. Combines hands-on **BigQuery/SQL** depth with strong product instinct, stakeholder alignment, and cross-functional delivery experience. **IIT Kanpur** alumnus.

CORE SKILLS

Product Management: Product Roadmap & Prioritization, Stakeholder Management, Requirements Definition, Cross-Functional Delivery, OKRs

Analytics & Experimentation: SQL / BigQuery, Python, A/B Testing, Cohort Analysis, Funnel Analytics, KPI & Metric Definition

BI & Tooling: Google BigQuery, Airflow, Looker Studio, Advanced Excel & Google Sheets, Apps Script

Frameworks: Pareto (80/20), Root Cause Analysis, Agile, Data-Driven Prioritization, User Segmentation, Experimentation

PROFESSIONAL EXPERIENCE

Lead Business Analyst — Noon.com

Gurgaon, India | Feb 2025 – Present

- **Owned a product end-to-end:** Gave **12+ stakeholders** a reliable daily source for **GMV**, **OOS** and pricing by owning a performance dashboard from scope through production (**BigQuery**, **Airflow**-scheduled).
- **Fixed a critical product-metric bug:** Protected the accuracy of a core **GMV** metric by independently catching and fixing a **BigQuery** bug that had inflated it by **4x** — before it could drive a wrong business decision.
- **Defined the north-star metric:** Closed a foundational double-counting flaw in the **OOS** methodology, making the corrected logic the single source of truth for every downstream product decision.
- **Prioritised a product investment with data:** Opened a **~190,000**-customer cross-sell opportunity via a **CEO**-facing deep-dive, giving leadership a concrete audience to target and translating it into an adopted product opportunity.
- **Shipped an experimentation platform:** Turned descriptive funnel reports into decision-grade insight by building a UID-level journey-attribution model connecting impressions through purchase.
- **Shipped reusable segmentation products:** Built a WhatsApp win-back targeting product for high-value customers lost to competitors, later reused as a template for grocery win-back.
- **Drove roadmap prioritisation with data:** Built a Brand Pareto (80/20 **GMV**) model directing inventory investment to the highest-revenue brands, feeding **GMV** forecasts directly into the annual operating plan.
- **Turned a manual workflow into a zero-touch product:** Replaced hand-distributed **OOS** and pricing reports with **Airflow DAGs** and **Apps Script** automailers, shipped as a reusable product for the entire team.

Senior Data Analyst — Eucloid Data Solutions

Gurgaon, India | Jan 2022 – Sep 2022

- **Product Experimentation Program:** Designed and executed **A/B tests** and user-journey mapping (**Python**) to improve product experience — lifted engagement **+20%**, conversion **+25%**, and **NPS +10%** through data-driven iteration.

Data Scientist — United Health Group

Gurgaon, India | Aug 2020 – Nov 2021

- **Automation Product Launch:** Defined requirements, built, and shipped an automated Dialer Task reporting product (**Talend ETL + SQL**) — cut manual effort **-80%** and served as the ops team's daily reporting tool.

Assistant Manager — Citibank

Bangalore, India | Jul 2018 – Aug 2020

- **KPI Dashboard Ownership:** Built and maintained a monthly **KPI** dashboard product (**SAS/SQL/Excel**) — the single source of truth for portfolio decisions; designed a segmentation model driving **84%** of sales.

Business Analyst (Intern) — Travel Triangle

Gurgaon, India | 2017

- **Cancellation Revenue Recovery:** Ran a **SQL**-driven cancellation deep-dive identifying a **₹3-lakh** revenue opportunity and a **10%** manpower efficiency gain.

EDUCATION

Indian Institute of Technology (IIT) Kanpur

Kanpur, India | 2013 – 2018

B.S.-M.S., Economics (Minor: Industrial & Management Engineering)

ACHIEVEMENTS

- **IIT-JEE 2013:** AIR 2235 | IMO 2009: 113th Rank (International Mathematics Olympiad).
- 'Batch of 1984' Merit Scholarship — awarded to top-performing students, **IIT Kanpur**.
