PROFESSIONAL EXPERIENCE

Lead Business Analyst

Noon.com, Gurgaon | Feb 2025 – Present | Supporting KSA Beauty & AE/SA FMCG

- **Built seller-performance system:** Architected the **AM/Seller Performance Dashboard (BigQuery, twice-daily)** — real-time GMV, OOS, and pricing visibility across **30+ brands** and **12 AMs**, replacing manual tracking.
- **Prevented a 4x GMV reporting error:** Diagnosed a **BigQuery** join bug inflating category **GMV by 4x**, fixed it before leadership saw it, and rebuilt the logic into the team's trusted **Deep Dive Dashboard** reference architecture.
- **Standardized OOS methodology:** Re-engineered a foundational double-count in the **OOS metric (SQL)** — the corrected logic now underpins every stockout-risk and revenue-loss figure across the portfolio.
- **Authored org-wide pricing standard:** Defined the **Price Competitiveness** methodology (**BigQuery/SQL**) adopted by every downstream dashboard; built a **Retail Inventory Health** view enabling proactive replenishment.
- **Surfaced a ₹190K-customer growth lever:** Led a **CEO-facing EPC/IPL deep-dive (BigQuery + Excel)** identifying a **~190,000-customer** cross-sell cohort; delivered as a 7-tab workbook + **2 production BigQuery tables**.
- **Informed a 10-brand investment review:** Built a **L'Oréal 10-brand YoY SKU-level scorecard (BigQuery/SQL)** for the leadership review, catching a silent filter bug before it distorted a brand investment decision.
- **Safeguarded revenue & ROI signals:** Built a recurring **OOS % of GMV Loss** tracker (**SQL, validated <25%**) and fixed a **SQL date-filter** bug overstating a coupon campaign's **new-to-brand ROI** reported to the CEO.
- **Built cohorts & planning models:** Built a **WhatsApp win-back cohort (BigQuery/raw_events)** for high-intent lost customers; produced **H1/H2 GMV forecasts (SQL) + Brand Pareto (80/20)** model for AOP.

Senior Data Analyst

Euclid Data Solutions, Gurgaon | Jan 2022 – Sep 2022

- **Grew product metrics:** Ran **A/B testing & user-journey mapping** lifting engagement **20%** and conversion **25%**; drove targeted campaigns contributing to a **15% sales increase**.

Data Scientist

United Health Group, Gurgaon | Aug 2020 – Nov 2021

- **Automated at scale:** Built automated reporting via **Talend ETL & SQL** cutting manual effort **80%**; refactored **ETL pipelines** for a **30%** efficiency gain; reduced oncology workload **70%**.

Assistant Manager

Citibank, Bangalore | Jul 2018 – Aug 2020

- **Drove segmentation & revenue:** Applied **K-means clustering (Python/SQL)** isolating top customers driving **84% of sales**; built a **KPI dashboard (SAS/Excel)** and a **24-month inactivity rule** preserving **~₹100M**.

Business Analyst (Intern)

Travel Triangle, Gurgaon | 2017

- **Recovered revenue:** Ran a **SQL-driven cancellation deep-dive** identifying a **₹3-lakh** revenue recovery opportunity and a **10%** manpower efficiency gain.

EDUCATION

Indian Institute of Technology (IIT), Kanpur | B.S.-M.S. Economics & Minor in IME | 2013 – 2018

ACHIEVEMENTS

- **IIT-JEE 2013: AIR 2235** | **IMO 2009: 113th Rank** | **'Batch of 1984'** Merit Scholarship, IIT Kanpur.
